Escape- The Story of the ORT Old Leeds Boys

The ORT Old Leeds Boys came to the UK in the dying days of August 1939. Transferred from the ORT Berlin Technical school, they left behind them friends, families and around half of their fellow students. Their journey took them from the East End of London, to Kent, and then onwards to Leeds, where a new ORT school was established for them.

Join us for an afternoon session to learn more about their extraordinary story, and about the charity, British ORT, which brought them here.
